It works with the vision of unified Bharat 'Akhand Bharat' countries like Pakistan, Afganistan, Nepal, Bhutan, Tinet, Bangladesh, Srilanka and Burma are part of the Unfied Bharat. It teaches loyality and devotion, Unity and solidarity.

According to Dr. Hedgewar 'Who ever enters into this spirit of devotion to the nation as a spiritual unity of land and people are Indians or Hindus in essence. The mental commitment should be final and supreme'.[4]

Dr. Hedgewar's views are not herely for teaching ideas and ideals but also for practical education in character building. Its nationalism provides space to all nations which enter into the spirit of spiritualism and patriotism.

Dr. Hedgewar provided a beacon light in the confused state of our national mind even to this day. The crisis in our country is more intellectual and mental than physical. Whatever Physical maladies are seen ravaging our body. Politics have their roots in the mental weakness

Very often he put up questions before his elders as "How is it that these Englishman coming from thousands of miles away have become our ruler?" He was rusticated from the school for lighting the flame of VandeMataram movement among the students. The undiluted patriotism, he had was acquired by him within his mother's womb.

He involved into the various political and social activities at Bengal and very soon became the inspiring center of a band of patriotic young men followed by all over the country.

He was a living example of a worker dedicated to the mission of national reorganization based on the highest values of our cultural heritage. His speeches were ever charged with patriotic feeling but were never provocative and violent.Even in very informal talks his words carried a wave of sweetness and appealing to the heart.

What a patriotic he was! Word fail to describe the depth of his selfless love.
